LABEL

Roll-The-Bones Records, www.Roll-The-Bones-Records.de
For those who chose to Pose Records <https://ftwctp.de/> (Vinyl)

Stage Plot

Technical Rider - Ignition

Attention:

The whole Band uses In-Ear Monitoring !!

We bring an in-ear rack for 5 in ear ways, consisting of a Yamaha 01V desk, 3 x Sennheiser und 1 x LD Systems in ear radio receivers. The Drum kit in-ear way is cable bound. In addition to that the in ear Rack holds 2 x 8 way Behringer splitboxes to receive the microphone and DI signals. From there the splitted signal will be returned to the stage box. After the patching work is done, the sound engineer just have to do the FOH Work. The In Ear Mix is delivered by us.

IGNITION

Backline

Drums: (required)

22" kick
12" tom tom, 14" + 16" floor toms
5 cymbal stands
1x DI Box for kick-trigger required !!

Hihat stand, snare + stand, kick pedals and cymbals are delivered by us.

Guitar:

Tops:

2 x Mooer GE 200 (balanced DI Out) (brought by us)

Bass:

Top:

1 x Sansamp (balanced DI Out) (brought by us)

Cabs:

We don't need any cabs, because all guitars and the bass guitar go to the desk as a direct inline signal
